Section 1 – Introduction

This directory provides a list of BlueJourney PPO's network providers. To get detailed information about your health care coverage, please see your Evidence of Coverage (EOC).

BlueJourney PPO members are not required to select a Primary Care Physician (PCP); however, we encourage our members to identify a primary provider to ensure they receive all appropriate healthcare services. Your PCP can also coordinate the rest of the covered services you need.

Your primary care provider is the doctor or other provider you generally see first for most of your routine healthcare needs. He or she makes sure you receive the care you need to be healthy. He or she also may talk with other doctors and healthcare providers about your care and refer you to them. In many Medicare health plans, you must see your primary care provider before you see any other healthcare provider.

A PCP will provide and coordinate the majority of your healthcare services. PCPs meet state requirements and are trained to give you basic Medicare care. Three types of PCPs are listed:

- General and Family Practice – these PCPs usually accept patients of all ages.
- Internal Medicine – these PCPs usually limit their practices to patients over the age of 14.
- Geriatrics – these PCPs usually limit their practices to older adults.

Your PCP can also help you arrange or coordinate your covered services. This includes X-rays, laboratory tests, therapies, care by specialists, hospital admissions, and follow-up care. Your PCP also contacts other network providers for updates about your care and/or treatment. In some cases, your PCP will need to get preauthorization (prior approval). Since your PCP will provide and coordinate your healthcare, you should have all of your past medical records sent to your PCP's office. The law requires us to protect the privacy of your medical records and personal health information. For more information about privacy, see your Evidence of Coverage (EOC).

Our plan will cover services from either in-network or out-of-network providers, as long as the services are covered benefits and medically necessary. You may choose to receive care from out-of-network providers. However, if you use an out-of-network provider, your share of the costs for your covered services may be higher.

The network providers listed in this directory have agreed to provide you with your healthcare services. You may go to any of our network providers listed in this directory. Some services must be preauthorized. Network providers are responsible for knowing which services require preauthorization and for obtaining preauthorization from BlueJourney PPO or its designated representative before providing the service.

You will notice some providers have a notation that states they are open to existing patients only or closed to all new members. In most cases, if this message is not listed, the practice is open to all patients. We recommend you contact the provider practice directly as the status may change prior to our records being updated.

Out-of-network providers are under no obligation to treat BlueJourney PPO enrollees, except in emergencies. For a decision about whether we will cover an out-of-network service, we encourage you or your provider to ask us for a pre-service organization determination before you receive the service. Please call our Member Services department at the number listed on the back cover of this directory. You may also refer to your Evidence of Coverage (EOC) for more information, including the cost sharing that applies to out-of-network services.

You may use out-of-network providers to get your covered services, although your out-of-pocket costs may be higher than if you use our network providers. For emergency care, including hospital care after you are stable, and urgently needed care, your out-of-pocket costs will be the same both in and out-of-network. There are special rules for out-of-network services. Certain services we offer are not covered out-of-network. Also, you do not need to get a preauthorization when you get out-of-network care from out-of-network providers. However, before getting an out-of-network service, you may want to check with us to see if the services you are getting are covered by BlueJourney PPO and are medically necessary. For more information or cost sharing information, see your Evidence of Coverage (EOC).

If you receive a bill from an out-of-network provider for covered services provided to you, **don't pay the bill**. Please submit the bill to Capital BlueCross at the address below. We will process the bill, according to your Evidence of Coverage (EOC), and let you know what, if anything, you must pay.

**BlueJourney
PO Box 211457
Eagan, MN 55121**

If you have a medical emergency, get help as quickly as possible, regardless of whether or not the facility is in-network. Call 911 for help, or go to the nearest emergency room or hospital. Call for an ambulance if you need it. As soon as possible, make sure our plan has been told about your emergency. We need to follow up on your emergency care. You or someone else should call to tell us about your emergency care, usually within 48 hours. Your member ID card has the phone numbers needed to contact BlueJourney PPO or you can find the Member Services phone number on the back cover of this directory.

“Urgently needed services” are nonemergency, unforeseen medical illnesses, injuries, or conditions that require immediate medical care. Urgently needed services may be furnished by network providers or by out-of-network providers when network providers are temporarily unavailable or inaccessible. The unforeseen condition could, for example, be an unforeseen flare-up of a known condition that you have.

With the exception of emergencies, it may cost more to get care from out-of-network providers.
